

Economic Justice and Domestic Violence ADVISORY COUNCIL

Recommendations Toolkit

The goal of [the National Network to End Domestic Violence \(NNEDV\) Economic Justice and Domestic Violence Advisory Council](#) is a long-term, in-depth collaboration of national experts in the domestic violence field working to advance survivors' economic empowerment and financial well-being. NNEDV virtually gathered those working at the intersection of domestic violence and economic justice to identify gaps and strategize ways to expand awareness and solutions through recommendations. It was our intention members would coalesce around a set of mutual goals and principles identified by the Council. Ultimately, the Council aims to inform public policy advocacy and program design, in addition to highlighting resource gaps and emerging issues.
